Facial Cleansing Device Limited Edition
DualMotion Technology Cleansing, 1 cleansing brush head, pouch, 1 intensity setting

SC5265/36

Highlights

10x better cleansing
Take your skin cleansing to the next level. As gentle as cleansing by hands, VisaPure Essential cleanses your skin 10 x better. It leaves your pores deeply cleansed, and your skin looking radiant and feeling soft.

DualMotion Technology

The brush rotates and vibrates. The vertical pulsating movement gently breaks up surface impurities including dirt, dead skin cells and make-up residues. The rotating movement sweeps the impurities away, leaving the skin more deeply cleansed.The coordinated movements of the bristles give you a thorough and comfortable cleansing experience.

Skin Zone Timer

The face can be divided into three zones:T-zone, left cheek and right cheek. Philips VisaPure Essential suggests to change face skin area after 20 seconds with a short pause. The full program lasts 1 minute after which Philips VisaPure Essential automatically switches off after to prevent overtreatment.

1 Intensity setting

Philips VisaPure Essential provides 1 speed setting 'Deep Cleansing', for a comfortable and more intensive cleansing.

Waterproof

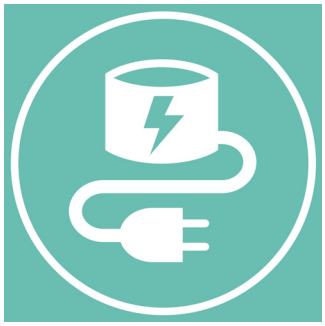
Philips VisaPure Essential is waterproof and can be easily used in the shower.

Increases absorption of creams

Cleansing with VisaPure means that you remove more make up residue and dull and dead skin cells. Thanks to the deep cleansing effect, your favorite skincare products such as creams, serums and essences are better absorbed by the skin.

Easy to clean
The brush head is easy to clean. Simply clean it in the sink with warm water and soap.

Charging Stand



The stand elegantly complements the iconic design of Philips VisaPure Essential. It holds the brush, taking less space and letting air naturally dry the used brush. When connected, it fully charges Philips VisaPure Essential in 6 hours.
